BLETCHLEY LANDFILL SITE UPDATE

December 08

Further to our update from August 08 we would again like to take this opportunity to brief you on current events and to ask for your assistance with traffic issues associated with the site.

Utilising Major Routes

Following widening works to the M1 the major routes to site can now be fully utilised which in turn will reduce the impact on residents along minor roads.

There continues to be concern from residents regarding heavy goods vehicles using routes around the A4146 road.

Please where ever possible can you utilise the major routes via the M1 and A5 to gain access to the Bletchley site, and ensure you drive responsibly at all times.

Sheeting Vehicles

Please ensure that your vehicles are free from debris before they leave site and enter the public highway. Please also ensure you have sheeted your vehicle to prevent the escape of litter.

Any complaints received from the public will be fully investigated by WRG and if appropriate action will be taken which may involve excluding drivers.
